

girls EXPLORING TRADES & TECHNOLOGIES CONFERENCE

GETT into it! New this year, registered students will get the chance to test-drive careers and learn new skills through a variety of free hands-on **GETT kits**. The below 6 activity kits will be sent directly to the school and each kit includes the necessary materials and safety equipment to complete an exciting activity, instructions, and tutorial videos. Kits cover careers such as: Sheet Metal, Woodworking, Aesthetics, Culinary Arts, Electrical Installations and Robotics.

In addition to engaging classroom kits, GETT registrants will connect as a community via an exclusive online **GETT Padlet** giving them access to helpful resources such as: Partner & Career information, Female Industry Influencer videos, Goal Setting activities, The 7 Dimensions of Wellbeing and chances to win prizes! Each student will also receive an exclusive GETT Swag Bag.

We hope you enjoy the activities and we can't wait to see your projects come to life!

	<p>Sheet Metal: Cell Phone Holder</p>	<p>This shiny and sleek cell phone holder provides a great opportunity to use real tools of the sheet metal trade. Create a metal cell phone holder using folding tools and tin snips. The perfect addition to your study desk!</p>
	<p>Woodworking: Storage Caddy</p>	<p>Using skills and techniques of the cabinet making trade, students will test drive their woodworking skills to assemble a storage caddy by measuring, cutting and creating joints.</p>
	<p>Robotics: Flitterbug</p>	<p>Fly into the electrifying career path of Robotics by building a Flitterbug! Join Skills Canada Alberta alumna Laine Van Hardeveld and learn the basic skills of soldering, circuit boards, and energy transfer with a fun robot that you can personalize and make your own!</p>

	<p>Aesthetics: Special Effects Makeup</p>	<p>Have you ever wondered how your favourite Hollywood movie created those life-like makeup wounds? Learn the tips of the movie trade as One Beauty Brands teaches you how to use wax and make up to create Oscar worthy special effects!</p>
	<p>Electrical Installations: Worm Gear Car</p>	<p>The worm gear car kit is designed to present students with the basic concept of gear movement. Further your knowledge of gears, electricity and high torque movement. Minimal drilling and gluing is required.</p>
	<p>Culinary Arts: Sushi Rolling</p>	<p>Put on your chef's hat and transport yourself to Japan with this sushi rolling activity. A professional chef will guide you step by step to create these delicious bites.</p>
