

Plant Pot Holder Instructions

Before you start, ensure that all the parts are present:

- 4 Screw eyes
- 4 frame sides
- A length of rope
- One plant pot

To begin, lay the frame sides so they are all facing upwards (with the small lip to the ceiling).

Then, align two corners and tap them into place. Some force may be required, so don't be shy to ask a friend for help, or use a hammer!

Once all the frame sides are in place, grab your screw eyes.

It may be useful to use a pair of pliers to get a better grip while screwing them in. Screw one eye into each corner.

Next, cut your rope into two 36" pieces (or to your own desired length).

Thread these through two eyes each and tie them together securely at the ends.

Finally, you can add your plant pot and decorate to your heart's delight!
