

Sheet Metal Cars

Video Tutorial

NAIT exists to serve the province. We promise to meet the current and emerging needs for practical, hands-on polytechnic education and to focus our research on solutions for real industry challenges.

What's Included

- 10 Sheet Metal Cars
- 10 squeegees
- Flame and Number Decals
- 5 Spray Bottles
- 10 Glasses
- 10 Pairs of Gloves

What You Will Need

- Marker Pen

HOLD UP!

Don't forget your personal protective equipment before you start! This includes a mask, safety gloves and glasses.

Let's Get to Work!

Spray and wipe down the metal surface to remove any dirt

Slightly peel back the decal and place onto the metal

Slowly peel back the decal using the squeegee to remove any air bubbles

Did you rock these skills? Talk to your teacher to learn more about how you can showcase your skills at Skills Canada Alberta, alongside other students from across the Province!

Add the folding numbers to the back of the car (see next page)

Fold the sheet metal along the seam, in corresponding order

And finally, don't forget to share your projects with us on social media!
