

Squirrel Picnic Table A

Carpentry

Squirrel Picnic Table

- Provided Materials:**
1. Wood pieces
 2. 1/8" drill bit
 3. 18 Screws
 4. Rafter's square
 5. Robertson #2 screwdriver
 6. Drill
 7. Safety glasses
 8. Gloves

- Required Materials:**
1. Ruler
 2. Pencil
 3. Clamps

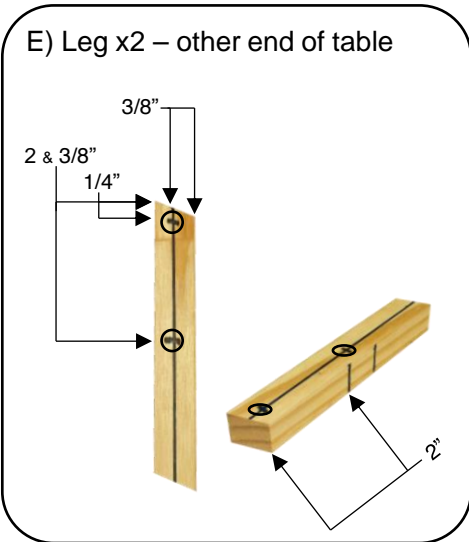

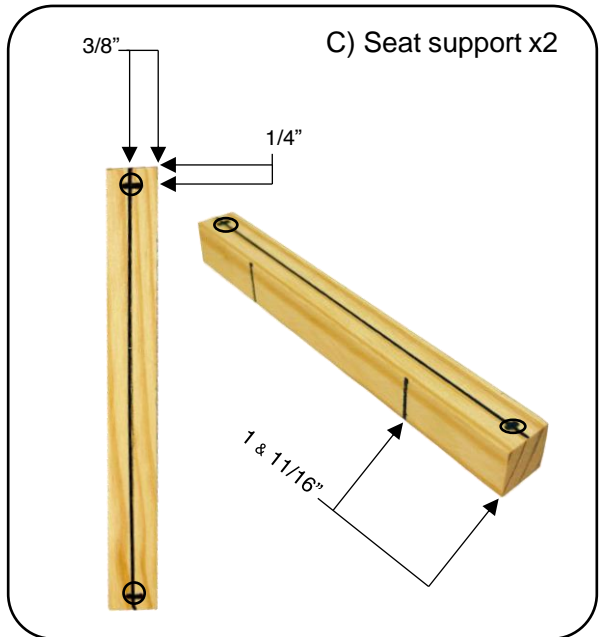

Safety First.

Before you begin, put on safety glasses and work gloves.

Preparation

1. Refer to the diagrams on this page to measure and mark all pieces.
2. Drill all holes. Drill marks are indicated by the circled dashes across lines: ⊕ MEASURE TWICE, DRILL ONCE.

Assembly

- Attach the tabletop braces (F) to the tabletop (A).

- Attach the legs (D and E) to the tabletop brace (F) on each side, using the centre line as a reference.

- Attach one seat support (C) to the insides of the legs on each side.

- Attach one seat (B) to the seat support (C) on each side.

When drilling, use your clamp to secure the part to a stable surface, and overhang the drill mark off the edge of the surface.

The Robertson screwdriver

Invented in 1908 by a Canadian travelling tool salesman, Peter Lymburner Robertson, after he had cut his hand demonstrating a slotted screwdriver that slipped out of the screw.

The tapered square bit keeps the bit in the screw, allowing better control.

CTS Cluster: TMT

Squirrel Picnic Table ~~FX~~

Project

In this pint-sized glimpse into the day-to-day work of a carpenter, students read blueprints and use carpentry tools to assemble a miniature picnic table for urban wildlife.

Carpentry ~~✓~~

Schooling

- Four-year apprenticeship
- Red Seal Journeyperson.
- Start early with the Registered Apprenticeship Program (RAP) or explore options available through Career and Technology Studies (CTS).

Jobs

- Construct, renovate, and repair structures made of wood, steel, concrete, and other materials.
- Work around the province, indoors and out.
- Average salary: \$72,252.00/year
- Average wage: \$33.27/hour
