What has been the best part of your Skills experience?

So far my favourite part is seeing all the well skilled competitors. Everyone has a little bit of a different way to do stuff but we are all very capable in doing the task at hand. Regardless of trade.

How do you feel having earned your spot on Team Canada?

I feel that I have earned it by, putting in countless hours working, been doing this trade for over 3 years now and learn a lot everyday. I feel that based on my working experiences I have done a lot of what we have to do in the competitions.

What are you most looking forward to now that you're on Team Canada?

What I am most looking forward on team Canada is to represent Canada, not everyday or everyone will be able to do that.
