What has been the best part of your Skills experience?

My favourite part of the Skills competitions is meeting and talking to people with lots of experience in the trade. I feel like there is always something to improve or learn, and those conversations have had a big impact on me and my journey in the electrical trade.

How do you feel having earned your spot on Team Canada?

I feel excited and honoured to have this opportunity. This wouldn't be possible without so many people working hard to make the competitions and training happen and I'm extremely grateful for that.

What are you most looking forward to now that you're on Team Canada?

I'm looking forward to learning how electrical is installed and programmed in different parts of the world and the challenge that comes with it.
