

## David Brown

**HOMETOWN:** Brooks, AB

**SCHOOL:** Brooks Composite High School

**COMPETITOR:** Brooke Potiuk

**TECHNOLOGY:** 3D Game Art

**What was the first thing that went through your mind when you realized your competitor made Team Canada?**

Having joined Team Canada a little later in the process it was quite a shock! I remember telling Mike Sury on the phone "Is this real... are you kidding me?" It's still a surreal experience even after diving into the training process.

**What made you want to train competitors for Skills Competitions?**

I love to coach sports, so it was a natural fit for me to start helping out our technology students find a competitive environment to show off their skills. Seeing the students grow in more ways than just their skill area is so rewarding.

**What do you think sets your competitor apart from the others in their skill area?**

Brooke is not only a natural talent in 3D Game Art, but she works tirelessly to perfect her craft. It's always rare to see those two things come together. Her ability to bring anything to life in a 3D world is always a treasure to behold.

**What are you most excited to experience in Lyon, France?**

I can't wait to meet and learn from all of the wonderful people in the 3D Game Art skill area. There is no greater professional development than watching the best in the world do what they do.
