What was the first thought that went through your head when you realized you had made Team Canada?

I couldn't believe that I was able to get the chance to compete with Team Canada.

What are you most excited to experience in Lyon, France?

I'm most excited to have the opportunity to compete under my trade through an unbelievable experience.

What do you love about your trade/technology?

I love everything about my trade, as I do a variety of tasks. Not only that but I get to share the same trade with my Dad and brother.

What has been the best part of your Skills journey so far?

The best part has been able to follow in my brothers footsteps as he competed in Skills a while back. And to prove to myself that I understand my trade and abilities.

Do you have any words of encouragement to future Skills competitors?

Try your best as you have more than one opportunity to compete.
