CONTEST INTRODUCTION

Information technology specialists are increasingly in great demand in several areas, one of which is in providing solutions for business. In this event, competitors will demonstrate their understanding in using Microsoft Word, Excel, and PowerPoint to solve a series of typical business problems resulting in professional-looking solutions.

Purpose of the Challenge:

This competition will evaluate any high school student's ability to solve various business problems using Microsoft Office to complete Word processing, spreadsheet, and PowerPoint presentation tasks. The tasks will only require the use of introductory-level skills from MS Word, Excel, and PowerPoint and the ability to save in a variety of file formats. In addition, the student should demonstrate the ability to create and use themes to provide continuity across all projects.

Please Note: The winner of this competition **DOES NOT** represent Alberta at the Skills Canada National Competition.

Skills and Knowledge to be tested:

Students should be prepared for the competition by applying the features and functions of Microsoft Excel, PowerPoint and Word to solve a variety of business problems. Students from any high school grade level can participate in the competition if they are knowledgeable in the following program areas:

Word may include, but is not limited to:

- Producing business letters using block style.
- Preparing single & multi-page business documents (ie. memos, reports, tables, posters and flyers).
- Keyboarding and editing skills including proofreading.
- Creatively enhancing documents using features like borders, shading and formatting of text.
- Creating, inserting, manipulating and using images, shapes, WordArt, diagrams, illustrations and charts to enhance documents.
- Displaying information using different page orientations, alignments and multiple columns.
- Producing a variety of attractively displayed information.

Excel may include, but are not limited to:

- Creating spreadsheet layouts, formulas and functions such as sum, mean, minimum, maximum, date and time.
- Editing spreadsheets that may include mixed cell addressing and mathematical formulas.
- Accessing data and developing a spreadsheet to answer specific questions.
- Creating, editing, and modifying charts and graphs.
- Viewing spreadsheet information in various forms (i.e. headers and footers, viewing split screen, change page orientation, set print options, display formulas).

PowerPoint may include, but are not limited to:

- Creating well organized presentations.
- Applying backgrounds, animations, timings, and transitions.
- Using advanced functions (i.e. action buttons, playing slideshow on a loop, hyperlinks).
- Creating, inserting, modifying and formatting various forms of text, pictures, shapes, charts, tables, graphics, WordArt and diagrams.
- Linking and embedding objects from various Office applications.
- Creating customized presentations including working with various master slides.
- Working with presentation views.
- Working with different themes.

**The criteria listed in each section above are intended as guidelines only. All criteria may or may not be included.*

PROJECT DESCRIPTION

The Test Project will be in the form of a case study for a fictitious company or non-profit organization.

The deliverables will include a simulation of workplace activities that might be asked of a professional who is confident in the use of Microsoft Office. These deliverables will be grouped to enable a combined approach whereby discrete tasks are completed within a session.

The project will be divided into three sessions with **two sessions on day one** and **one session on day two**. Refer to the competition schedule in this contest description for the exact session times.

Competitors will be expected to follow the stated style guidelines, while processing information. Competitors will submit their work at the end of each session.

EQUIPMENT & MATERIALS

Equipment and Materials Supplied by Competitors:

Bring Your Own Device (BYOD) Information

IMPORTANT: Competitors are required to bring their own device (BYOD) and software for the competition. Each PC (no Apple products permitted due to incompatibility with Microsoft Access) device will require the following specifications:

- English or French keyboard depending on competitor's preference
- No internet access during competition
- Software:
 - o Windows 10 or greater (French and/or English version)
 - o Microsoft Office 2019 or greater (French and/or English version) **installed on the device (no cloud-based software)**
 - Word
 - PowerPoint
 - Excel

If competitors are bringing a computer or laptop from their school (instead of their personal computer), please ensure that the computer is unlocked allowing for USB sticks, documents and possibly software to be saved/installed to the hard drive and IT support can be properly provided onsite. This may require administrator privileges to access the CMOS settings. All USB sticks will be provided.

2026 Provincial Skills Canada Competition

Note: Computers must remain inside the competition area for the duration of the competition from the time the competition begins on Day 1 to when the competition ends on Day 2 (including overnight). Competitors may supply their own locking cables if they wish.

Equipment Set-up and Testing (for BYOD events)

Before the Opening Ceremonies and registration, competitors who are competing in technology-based events that are a BYOD event will be given an opportunity to set up and test their equipment to ensure it is fully functional and networked (where required) prior to the start of the competition. Only accredited competitors and educators will be permitted into the competition site for equipment drop off and testing. Students who miss the equipment setup and testing opportunity will need to set up their equipment AFTER the mandatory COMPETITOR ORIENTATION time on the day of competition. Any time that is required to set up and test their equipment on the competition day will be part of their overall competition time. The competition time for these competitors will NOT be extended.

Equipment Set-Up and Testing will be held on Tuesday May 5, 2026, at 4:00PM.

Students have the option to bring their own additional external monitor and accompanying cables.

Other:

- Writing tools including a highlighter.
- Appropriate business attire should be worn (Dress in layers to accommodate varying temperatures).
- Competitors must provide their own power bar and extension cords for all BYOD devices.
- Competitors must provide their own standard headphones (compatible with their own computer).
- Competitors are allowed to listen to music during the competition.

Competition Specific Rules

The following Competition Specific rules along with SCA's overall Policies and Procedures provide specific details in competition areas that may vary from one another. Any additional contest rules will be reviewed during the Competitor Orientation.

Topic/Task	Contest Specific Rule
Use of Technology – Cell Phones & Music	• Competitors are allowed to bring or use their personal cell phone into the skill area if it is in airplane mode and the phone is face up on the table. • Phones may be checked by PTC members. • Competitors are allowed to listen to music using their cell phone if they wear earphones.

2026 Provincial Skills Canada Competition

	Devices cannot be managed during competition (ie. change of songs, etc.)
Use of Technology - Internet	Competitors are prohibited to use the internet for any purpose during the competition.
Use of Artificial Intelligence (AI)	Competitors cannot use AI to develop/generate any of the submitted work for any aspects of the competition.

SAFETY

The health, safety and welfare of all individuals involved with Skills Canada Alberta are of vital importance. Safety is a condition of participation with Skills Canada Alberta and shall not be sacrificed for the sake of expediency. At the discretion of the judges and technical committees, any competitor can be denied the right to participate should they not have the required proper safety equipment and/or act in an unsafe manner that can cause harm to themselves or others.

JUDGING CRITERIA

WORD PROCESSING APPLICATIONS	33	1/3%
SPREADSHEET APPLICATIONS	33	1/3%
POWERPOINT APPLICATIONS	33	1/3%

OVERALL TOTAL **100%**

TIE BREAKING PROCESS

In the event of a tie, the competitor with the highest score in Word will be declared the winner. If a second tie occurs, the competitor with the highest score in Excel will be declared the winner. If a third tie occurs, the competitor with the highest score in PowerPoint will be declared the winner.
